EXPERIENCE

- Zooly** 2023 - 2024

Principle Engineer/ML Developer

Led the implementation of AI solutions, including voice models and chatbots, enhancing product functionality and user experience. Built "Freeya", a real time chabot finetuned and rag enabled (and tools) to help walk new customers through key points in the signup and application.
- Devmentor.live** 2018 - 2023

Founder, Principle Mentor, Lead Developer

I outgrew codementor.io and went on to build out my own platform (now defunct) to assist me in training new developers on YouTube livestreams and Zoom meetups. Mentored roughly 80 students over several years, many of them for more than a year.
- Codementor.io** 2016 - 2018

Top-Rated Web Development Mentor

I mentored on this platform for a couple of years and rose to the top of the ranks. I had around 500 5 star reviews (I still have all my reviews) on the platform and helped people from every race, religion, creed, and other important personal identities.
- Intel, Teach.com, Callaway Golf, Uber, YouTube** 1997 - 2016

Arowwai Industries | 123 Anywhere St., Any City
